Dear FCC:

I am a truck driver and the traffic and weather channels I receive on my XM radio are beneficial to me.

I pay for this service and should be able to enjoy any channel I wish. My satellite radio gives me better quality and variety that I can't get from just from an antenna. I believe it should not be up to the NAB to tell me what I am allowed to hear. Please reject the NAB petition and let us have our satellite radio that we pay for.
